Professional summary

I am a Frontend Web Developer with 1+ years of experience in developing, implementing, and optimizing web applications. I have a passion for creating intuitive user experiences and have extensive knowledge of HTML, CSS, JavaScript. I strive to stay up-to-date with the latest trends in web development and design. My biggest achievement is launching a website that received over 1 million page views in its first month. I am a critical thinker and problem solver with excellent communication skills and attention to detail. My best qualities are my creative mindset and ability to adapt quickly to changing requirements. I am comfortable working independently or collaboratively on any project.

Education

Undergraduate

2022 - Now

Darjeeling government college

India, Darjeeling

Experience

Junior frontend web developer

August 2022 - Now

Trainee / India, Darjeeling

Working as Junior frontend web developer at Trainee India was a great opportunity for me to learn new technologies and develop my skills in the field. I was able to apply my knowledge in designing, coding and creating user friendly web applications. My responsibilities included:

- Developing responsive and interactive websites
- Testing & debugging web pages
- Implementing design features & functionalities
- Writing client-side code using HTML, CSS & JavaScript
- Optimizing web page performance
- Ensuring web page standards & quality
- Creating technical documentation
